REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Although the prior art teaches polymers with the same proportions of the same first two monomers, the specific cure site monomer with the proportions of the other monomers is neither taught nor suggested. The special performance of these specific terpolymers having been demonstrated, the claims are both novel and unobvious over the closest prior art as cited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernard Lipman whose telephone number is 571-272-1105. The examiner can normally be reached on 8-5 Mon-Fri.
